The Mother and Child Tracking System (MCTS) is a leading programme under National Rural Health Mission. It entails a paradigm shift in monitoring the delivery of maternal and child health services to ensure that every pregnant women and every new born in the State receive ‘full’ maternal and child health services which may accelerate the reduction in maternal, infant and child morbidity & mortality.

For effective implementation of MCTS in the Districts and Sub-divisions level, it is important that responsibility of MCTS implementation is entrusted to the District Programme Manager, Therefore District Programme Manager is declared as District Nodal Officer, for implementation of MCTS in Districts and Sub-divisions. District Data Assistant will give technical support related to data entry under MCTS.

The District Programme Manager will be responsible for following activities/task:

1. Coordinating all activities related to the implementation of Mother and Child Tracking System at the District level.
2. Organizing the meetings of District Project e-Mission Team (DPeMT) chaired by the District Magistrate & Collector.
3. Preparing performance report of MCTS at the District level and submitting the performance report to the Chairperson of DPeMT to be discussed at the meeting of DPeMT.
4. Follow up the decisions taken by the DPeMT related to the implementation of MCTS in the District.
5. Planning and organizing training programme at the District and block level related to the Mother and Child Tracking System.
6. Liaison with the State and Central authorities on different issues related to the implementation of MCTS in the District.

7. Visiting the block and below block level Health facilities to identify the bottlenecks in the implementation of MCTS and initiating corrective actions as per the decisions taken in the meeting of DPeMT.

8. Coordinating with the Sub-divisional Programme Managers for all issues related to the implementation of MCTS.

This issues with immediate effect.
