

**No. F. 3(5-926)-FWPM/HFWS/2009/ Vol-III**

National Health Mission  
State Health & Family Welfare Society, Tripura  
Health Directorate 3<sup>rd</sup> Floor  
Pt. Nehru Complex, Gorkhabasti  
Tripura: Agartala.

18<sup>th</sup> July 2014

**MEMORANDUM**

It is observed that articles other than Routine Immunization vaccines, diluents, even syringes partially filled with vaccine are kept in ILR & deep freeze which is dangerous practice and may cause serious catastrophe at any moment. This amount to serious negligence on the part of cold chain handlers and lack of monitoring & supervision by Medical Officers including District level officials.

Govt. of India guidelines in this regard already made available with all concerned. Also the issue is discussed in the trainings of Cold Chain handlers, ANM/ MPW & Medical Officers. All concerned are once again requested to take sincere efforts to ensure that such negligence do not recur in future for the safety of beneficiaries.

  
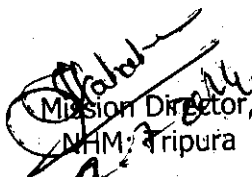

(Dr. Sanjeev N. Mahatme)
